Timeless Panels for Every Project...

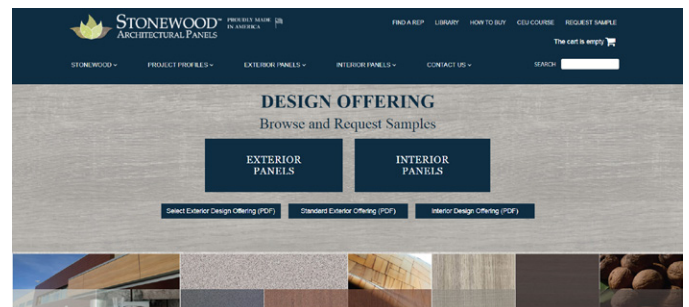

Over 25,000 sq. ft. of Stonewood Architectural Panels adorn the Northgate Transfer Center in El Paso, TX. The mixed-use project converges multiple spaces, each with its own Stonewood panel design.

Industry Insights:

What are Phenolic Panels?

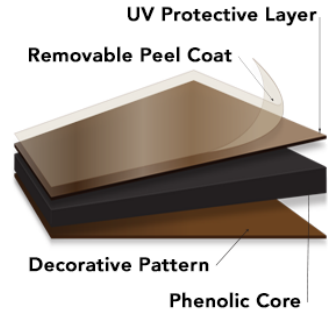

Kraft paper is the major component.

Phenolic resin and a decorative layer are added.

The “paper sandwich” is cured under heat and pressure.

The result is a highly durable and non-porous wall covering or cladding.

Impervious to moisture, graffiti, and bacteria.

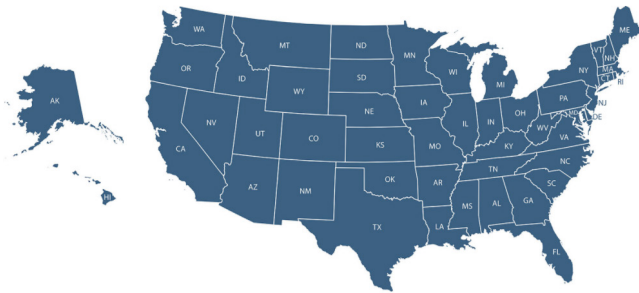

Damaging UV rays are 99% filtered.

Panels tolerate all climates.

Stonewood panels are NFPA 285 compliant.

NEW! Find a Rep Map

Finding your local reps is now easier than ever! Simply select your state from the interactive map.

Why Stonewood?

Quick Lead Time

Made in America

Zero Flame Spread
